perplexity

# Are there recommended blogs that cover both tools and techniques in audits

Yes, several reputable blogs cover both security audit tools and techniques, offering both practical tool reviews and actionable best practices. Here are some top recommendations:

### Top Blogs Covering Security Audit Tools & Techniques

#### 1. Dark Reading

- **Coverage:** Comprehensive, regularly updated articles on security audits, tools, and techniques for enterprise environments.
- **Why:** Covers the latest tools, real-world case studies, and practical techniques.
- **Link:** Dark Reading

#### 2. Krebs on Security

- **Coverage:** Investigative articles and in-depth analysis of security incidents, often including how audits and tools could have prevented or detected issues.
- **Why:** Offers insight into both industry tools and audit methodologies.
- **Link:** Krebs on Security

#### 3. ACI Learning Blog

- **Coverage:** Focuses on IT and security audit best practices, tools, and certification topics.
- **Why:** Practical advice and updates on both tools and audit techniques.
- **Link:** ACI Learning Blog

#### 4. Netwrix Blog

- **Coverage:** Specializes in audit, compliance, and security management tools, with step-by-step guides and tool comparisons.
- **Why:** Great resource for both beginners and professionals interested in practical audit techniques and tool reviews.
- **Link:** Netwrix Blog

### 5. Infosecurity Magazine – Audit Section

- **Coverage:** News, analysis, and guides on IT audit tools and techniques, with a focus on compliance and risk management.
- **Why:** Regularly features expert opinions and case studies on audit tool usage and best practices.
- **Link:** Infosecurity Magazine – Audit

### 6. Unsupervised Learning (Daniel Miessler)

- **Coverage:** Weekly newsletter and blog with a blend of security, audit, and AI insights, often discussing tools and techniques.
- **Why:** Forward-thinking, accessible content for both beginners and professionals.
- **Link:** Unsupervised Learning

### Summary Table

| Blog Name | Focus Area | Link |
|---|---|---|
| Dark Reading | Tools, techniques, case studies | darkreading.com |
| Krebs on Security | Incident analysis, audit methodologies | krebsonsecurity.com |
| ACI Learning Blog | Audit best practices, tools, certification | acilearning.com/blog |
| Netwrix Blog | Audit, compliance, tool reviews | netwrix.com/blog.html |
| Infosecurity Magazine | Audit tools, techniques, compliance | infosecurity-magazine.com/topic/audit/ |
| Unsupervised Learning | Security, audit, AI, tools | danielmiessler.com/blog |

These blogs are excellent for staying updated on both the latest audit tools and the best techniques for using them effectively[1] [2].
